Summary

Final-year Information Technology engineering student with hands-on experience in analytical and machine learning projects. Proficient in PowerBI, Tableau, with a strong foundation in DSA, OS, and databases. Focused on AI, team leadership, and innovative problem-solving.

Technical Skills

Programming Languages - Javascript, Typescript,

Databases : SQL,

Libraries & Frameworks : React-Native, React

Version-Control - Git, Github

Developer Tools: VS Code, Jupyter notebook, Google-Colab

Operating System :Windows

Collaboration Tools : Microsoft Teams, Skype, Zoom, Google Chat

Personal Projects

FashionSnap | (Typescript,React-Native)

- Developed FashionSnap, a mobile app built with React Native and TypeScript, featuring a seamless signup-login system using React Hooks.
- Implemented native navigation, integrating all types of navigation (stack, tab, drawer) for an intuitive user experience.
- Optimized app performance and UI responsiveness, ensuring a smooth and engaging mobile experience

Data Insights Portal (React.js, Tailwind CSS, React Icons, React Typed)

- Developed a responsive analytics platform that offers an engaging and modern digital experience through dynamic animations and smooth navigation.
- Implemented interactive elements that enhance user engagement and provide a visually appealing, intuitive interface.
- Optimized performance and accessibility across all devices, ensuring a seamless and user-friendly experience.

Education

Shantilal shah engineering college

Oct-2021 – May 2025

B.E. Information Technology

Area Of Interest

- Team Leadership

- Gradual Learning of New Skills

- Innovative Thinking
